Problem Solving Interpret Information

<u>Directions</u>: Interpret continent information to answer the questions.

<u>Asia</u>

Pop. 4,462,676,731 **Area** 17,212,000 mi²

Australia

Pop. 25,421,200 **Area** 2,969,907 mi²

Europe

Pop. 741,447,158 **Area** 3,930,000 mi²

South America

Pop. 420,458,044 **Area** 6,890,000 mi²

North America

Pop. 579,024,000 **Area** 9,540,000 mi²

Pop. 1,225,080,510

Area 11,730,000 mi²

1. List the continents in order from least to greatest by size.

2. Round each continent's population to the nearest million then write the new population.

Africa	Asia	Australia	Europe	North America	South America

3. Round each continent's area to the nearest hundred thousand then write the new size.

Africa	Asia	Australia	Europe	North America	South America

Fun Fact:

Antarctica is the driest, windiest, emptiest, coldest place on earth. It contains 75% of the world's ice.

ANSWER KEY

Problem Solving Interpret Information

<u>Directions</u>: Interpret continent information to answer the questions.

<u>Asia</u>

Pop. 4,462,676,731 **Area** 17,212,000 mi²

Australia

Pop. 25,421,200 **Area** 2,969,907 mi²

Europe

Pop. 741,447,158 Area 3,930,000 mi²

South America

Pop. 420,458,044 **Area** 6,890,000 mi²

North America

Pop. 579,024,000 **Area** 9,540,000 mi²

Pop. 1,225,080,510 **Area** 11,730,000 mi²

1. List the continents in order from least to greatest by size.

Australia	Europe	South America	North America	Africa	Asia

2. Round each continent's population to the nearest million then write the new population.

Africa	Asia	Australia	Europe	North America	South America
1,225,000,000	4,463,000,000	25,000,000	741,000,000	579,000,000	420,000,000

3. Round each continent's area to the nearest hundred thousand then write the new size.

Africa	Asia	Australia	Europe	North America	South America
11,700,000	17,200,000	3,000,000	3,900,000	9,500,000	6,900,000

Fun Fact:

Antarctica is the driest, windiest, emptiest, coldest place on earth. It contains 75% of the world's ice.
